Oral Screening Consent Form

Our practice continuously looks for advances to ensure that we are providing the optimum level of oral health care to our patients. We are extremely concerned about oral cancer and look for it in every patient.

One American dies every hour from oral cancer. Late detection of oral cancer is the primary cause that both incidence and mortality (death) rates of oral cancer continue to increase.

As with most cancers age is the primary risk factor for oral cancer. Tobacco and alcohol are other major predisposing risk factors but **MORE THAN 25% OF ORAL CANCER VICTIMS HAVE NO SUCH LIFESTYLE.**

ORAL CANCER RISK PROFILE

1. **Increased risk:** patients 18-39 years old
2. **High risk:** patients 40 years or older and all tobacco users younger than 40
3. **highest risk:** patients 40 years or older with lifestyle risk factors such as tobacco and alcohol use as well as history in family and self

We have recently incorporated **VELSCOPE** into our oral screening standard of care. We find that using **VELSCOPE** along with our standard oral cancer screening examination improves our ability to identify suspicious areas at their earliest stages.

VELSCOPE is similar to proven early detection procedures such as Mammography, Pap smear and PSA. **VELSCOPE** is a simple and painless examination that gives us the best chance to find oral abnormalities at the earliest possible stage. Early detection of pre-cancerous tissue can minimize or even eliminate the potentially disfiguring effects of oral cancer, and possibly save your life. The **VELSCOPE** exam will be offered to you annually.

This enhanced examination is recognized by the American Dental Association as procedure code D0431 in the CDT-5 code book; however, this exam may not be covered by your insurance. The fee for this enhanced exam is \$54

Yes. I authorize the clinician to perform the **VELSCOPE** exam along with standard oral cancer examination. I accept full financial responsibility for this enhanced exam.

No. I understand the benefits of the **VELSCOPE** exam and there may be an increased risk in declining this enhanced procedure but prefer not to have it done at this time.
